HISTORY

each of these handmade baths takes up to 120 hours to create resulting in a unique and matchless piece. They are suprisingly light and weigh approximately 45 - 80 kg making them ideal for renovation projects where weight is a consideration. They are coated to protect the metal so require minimal cleaning with a standard bathroom cleaner and soft cloth. The size and price listed is standard and they will take about 6 weeks from order date to be made. If you require a different size, please email us for a quote and lead time.
