A MOROCCAN BISTRO TABLE

Hand made in Marrakech

The glazed mosaic top raised on wrought metal supports,

DIMENSIONS: 76cm (30") High, 60cm (23^½") Wide

STOCK CODE: 41591

HISTORY

These beautiful tables are hand made in the workshops of Marrakech and surrounding villages. Each one is different. The mocaists work to memorised designs rather than following drawings. They are robust for outside use but, being native to Morocco, they are not used to frost. Either cover your table top in winter months or put it away in a shed and they will last for decades of long lunches during hot summers! Pictured L to R 41588, 41589, 41590, 41591
