A PAIR OF ENGLISH COMPOSITION STONE GATE-PIER BALL FINIALS,

smaller size, newly made to an early 19th Century pattern,
each with a sphere held aloft on a spreading knopped socle above an integral square-section
plinth foot,

DIMENSIONS: 51cm (20") High, 30cm (11^{3/4}"") Wide, 30cm (11^{3/4}"") in Diameter

PRICE: £360 the pair

STOCK CODE: 44339

HISTORY

Traditional finials for gate-piers, parapets or terrace walls, these spheres were hand-carved or later cast in stoneware. Here we have cast them in composition stone and given them an aged patina. They are usually sold by the pair – and are priced per pair – they can be ordered in series if required. Scroll through the pictures to see scale (with a bottle) from which you can make comparison with the larger version (see 49108).
