A PAIR OF ENGLISH COMPOSITION STONE GATE-PIER BALL FINIALS,

larger size, newly made to an early 19th Century pattern,
each with a sphere held aloft on a spreading knopped socle above an integral square-section
plinth foot,

DIMENSIONS: 77cm (30³/₄") High, 46cm (18") Wide, 46cm (18") in Diameter

PRICE: £680 the pair

STOCK CODE: 49108

HISTORY

Traditional finials for gate-piers, parapets or terrace walls, these spheres were hand-carved or later cast in stoneware. Here we have cast them in composition stone and given them an aged patina. They are usually sold by the pair – and are priced per pair – they can be ordered in series if required. Scroll through the pictures to see scale (with a bottle) from which you can make comparison with the smaller version (see 44339).
