A PAIR OF LARGE VICTORIAN GOTHIC WROUGHT IRON GATES

removed from the screen wall of The Somers Town Goods Depot, St. Pancras - built by Joseph Firbank for the Midland Railway Company, c. 1883 - converted from railings to gates in recent years, RESERVED,

each leaf comprising three lancet arches richly ornamented with scrollwork, forged and fire-welded to the highest calibre, with leafy finials to the top rails, two registers of tridents to the middle band and dense scroll-work to the lower panels,

DIMENSIONS: 277cm (109") High, 143cm (56³/₄") Wide, 6cm (2¹/₄") Thick, each panel (Height to the top rail = 243cm), (width excluding hinges)

STOCK CODE: 45984

HISTORY

The history of this ironwork is notable – it once formed part of a vast wall along The Euston Road that contained The Somers Town Goods Yard – read the history [here](#). LASSCO News gives the history of the Goods Yard that occupied the site on which The British Library stands today and the fabulous wall that contained it: The Greatest Forgotten Wall in London..

The handsome frontage of The Somers Town Goods Yard – now the site of The British Library. Photo – Reproduced with kind permission from: The Midland Railway Study Centre, Derby
