HISTORY

This smart Georgian design, was much used well into the 19th Century. Here nickel-plated, this pattern can work beautifully in contemporary schemes. Suitable for internal mortise lock or rim locks (for rim locks one rose can be omitted & the knobs are secured to the spindle with a grub screw). Spindle gauge is standard and should work in any English mortise or rim lock. These are reproduction door-knobs so can be ordered in quantity if required. Also available in brass see 92054.
