A SECTION OF MARINE TEAK DECKING - ONE FROM A SELECTION AVAILABLE

the rectangular panel pierced with a grid lattice,

DIMENSIONS: 53.5cm (21") Wide, 4.5cm (1^{3/4}") Thick, 110cm (43^{3/4}") Long

PRICE: £350

STOCK CODE: 45992

HISTORY

These robust sections of decking are made to withstand the ravages of an ocean-going life. They can be re-used as table tops, duck-boards, screen walls etc. Great for wet-rooms and boot rooms. Essentially single-sided applications - they are not double sided. Scroll through the pictures - this for the leaning panel second from right, the others are catalogued individually.
