A RUN OF ENGLISH CAST IRON AND STEEL RAILING FOR A TOWNHOUSE FRONTAGE,

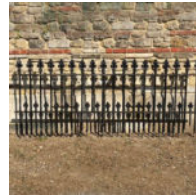

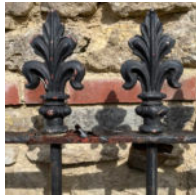

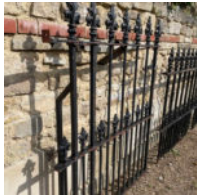

19th and 20th Century,

comprising five lengths of railing with foliate finials on the uprights and dog-bars, plus a single gate en suite (144h x 98w cm). The height of the top rail of the access gate at 123cm informs the original installed height of the railing.

DIMENSIONS: 121cm ($47\frac{3}{4}$ ") High, 1273cm ($501\frac{1}{4}$ ") Wide, height to top rail =99cm. Panel widths: 284 , 302 , 172 , 245 , 270 = 1273cm

PRICE: £4,350 the lot

STOCK CODE: 49128

HISTORY

The original context had this run of railing mounted on a dwarf wall – the uprights set in lead-filled sockets in the traditional way. A later matching panel seems to have been created with an additional bottom rail. Some finials are off but retained.
