AN ENGLISH PINE AND AND CAST IRON FACTORY TROLLEY,
early 20th Century, removed from a Lancashire paper factory,
the slatted superstructure comprising eight pigeon-holes, four to each short side, each with a
fold-away shelf, all raised on a single axle bogey with a slide-wheel to each end,

DIMENSIONS: 163.5cm (64^{1/4}") High, 106cm (41^{3/4}") Wide, 66cm (26") Deep

STOCK CODE: 44350

HISTORY

The paper mill from which this trolley was sourced specialised in the manufacture of brown paper bags. A fleet of these trolleys was used for the conveyance of bales of the bags ready for distribution. There is scope to cut the superstructure down height-wise as required for re-use in retail, restaurant or domestic use.
