the body with an everted rim and mask-and-loop handles cast in relief with Apollo Citharaedus and Genius and raised on a socle and block foot together with a square section pedestal,

DIMENSIONS: 147cm (57^{3/4}") High, 60cm (23^{1/2}") Wide

PRICE: £1,550 each with pedestal +VAT

STOCK CODE: 91055

HISTORY

This is a replica piece. This campana urn, although different in form to Hope's copy of a Greek vase of white marble in the museum at Pontici" does utilise the same "group of Apollo Cithardaedus and Genius, borrowed from a bas relief in the British Museum". See "Thomas Hope - Regency Furniture and interior Decoration". Dover, New York 1971, p86.
