PORTRAIT OF A GENTLEMAN WEARING A RING,

Framed oil on canvas.

A prominent feature of this portrait is the hand with a ring on the little finger. In portraiture it was usually the sign of a gentleman to wear a signet ring on the little finger of the right hand; though his one is encrusted with rows of stones and he shows another curious trait by partially hiding his thumb in his waistcoat.

DIMENSIONS: 88.5cm (34^{3/4}") High, 76.5cm (30") Wide, 3.5cm (1^{1/2}") Deep
